

Dear Parents/Carers

Please carefully read the information below which will impact the school community.

The Department of Education will be implementing a server upgrade at the school commencing **Friday 25 November** from **2:00pm** to **Tuesday 29 November 2022**.

- This means that we will not have access to computers and internet during this time.
- As the phones are internet based, it is likely that they will also be out of action. The school phone number will be diverted to our mobile. Please be patient if we do not immediately answer, we only have one mobile device.
- There will be no facilities to process payments on these days.

A Connect message will be posted when everything is up and running again, hopefully that will be first thing Tuesday morning.

In addition, Western Power has notified us of a scheduled suburb wide power outage on **Friday 2 December**. This will again impact on our access to computers, phones, Eftpos facilities and all other electrical devices.

The Buzz Bar (Canteen) will also be affected by the outage and will be **CLOSED** on **Friday 2 December** - **PLEASE** make sure to pack lunch for your child/children on this day. Please note: Nuggets will be available on Wednesday 30 November instead.

We thank you for your patience in the coming week.
